Every year from June through October more than 1.5 million the wildebeest and more than 200,000 zebras and Gazelles migrate from the Great Plains of the Northern Serengeti and into the rolling savannahs of Masai Mara in Kenya. They are relentlessly pursued by the Africa great predators, lions, leopards, cheetahs and hyenas; this is the best time to be in Northern Tanzania and Masai Mara in Kenya and by far the best time to see the river crossings. **AND year around Dec/March in southern Serengeti and Ngorongoro conservation** area the great herds of the migrating wildebeest will drop their calves, it is estimated that approximately 750,000 wildebeest synchronize their birthing with all calves being born within a three-week period.
